Incorporation of Companies in the Digital Age

University Würzburg
16th and 17th March, 2018

Fritz Thyssen Stiftung
für Wissenschaftsförderung

It is a top priority of the European Commission to create a true Digital Single Market. Consequently, the digitalisation of company law is expected to be an important element of the “Company Law Package”, which has been announced for the 21st February, 2018.

Online incorporation of companies has already proved to be the most controversial aspect of digitalisation in company law. Most of you will remember the lively discussions in this regard triggered by the proposal for the single member company (SUP). My colleague Pierre-Henri Conac and I have therefore decided to organize a conference on 16th and 17th March, 2018 dedicated exclusively to topics concerning the Incorporation of Companies in the Digital Age.

The conference will bring together academics and practitioners from different jurisdictions reporting their own opinions and experiences with incorporating companies (be it electronically or not) in their home countries.

We look forward to your participation.

Prof. Dr. Christoph Teichmann

Prof. Dr. Pierre-Henri Conac

Friday, 16th March, 2018

9.00	Registration and morning coffee
9.30	Opening remarks <i>Prof. Dr. Christoph Teichmann</i>
